

PUBLIC FORUM ON PREVENTION OF PARENT TO CHILD TRANSMISSION

On the occasion of World AIDS Day, department of obstetrics & Gynaecology in collaboration with ART centre, Paediatrics centre of excellence (pCoE), Lady Hardinge Medical College, New Delhi under the aegis of NARCHI organised a public forum on PREVENTION OF PARENT TO CHILD TRANSMISSION OF HIV on 2nd December, 2022 in Gynaecology OPD, New OPD block, 2nd floor. Dr V K Sharma, Additional MS, Dr Reena (HOD Obstetrics & Gynaecology) and Dr Ratna (Director Professor, Obs and Gyne) addressed the gathering. The aim of the forum was to increase awareness among antenatal women about HIV, how it is spread and detected. Various myths regarding HIV, its consequences on the couple when detected positive and importance of doctor's advice especially adherence to treatment were emphasized with the help of role play by the postgraduate students. Awareness regarding importance of breastfeeding and care of newborn born to HIV positive woman were also told to antenatal woman. A slogan competition was also organised with the theme of PPTCT and the winners were felicitated.
